BRIAN TEMU

Edgewood, MD | +1 (443) 866 1269 | iq58974@umbc.edu | www.iam-brian.dev

WORK EXPERIENCE

Softnet Technologies Ltd,   **Dar es Salaam, Tanzania**
Software Engineer   April 2022 - Aug 2023
- Designed and executed new features and enhancements, leading to a 15% improvement in user experience
- Reduced bugs by 25% and improved product quality through collaboration with the product owner.
- Led workshops on Tailwind CSS and Figma, achieving 90% adoption, and saving using external templates.
- Collaborated with the product owner to identify and resolve design issues.
- Implemented Scrum, achieving 20% more on-time project deliveries with 95% sprint goal success.

Tanzania Data Lab (dLab),   **Dar es Salaam, Tanzania**
Apprenticeship Software Developer   July 2021 - Sep 2021
- Collaborated with cross-functional teams including software developers and domain experts.
- Researched and evaluated ML algorithms for recommendation engines, boosting model evaluation by 15%.
- Achieved significant performance improvements by applying transfer learning techniques, resulting in a notable increase in results.
- Expertly collected, cleaned, and transformed image data, ensuring top-quality training datasets that achieved optimal model performance

EDUCATION

University of Maryland, Baltimore County   **Baltimore, MD**
Master's in Data Science   Expected: May 2025

University of Dar es salaam   **Dar-es salaam,Tanzania**
Bachelor of Science in Computer Science   October 2022

SKILL

Programming: Python, Javascript, and SQL. Machine Learning: Scikit-learn and TensorFlow. Frameworks and Libraries: Pandas, Numpy, Seaborn, Matplotlib, and Tableau. Data Preprocessing: Feature engineering, Data cleaning. Tools: Visual Code, Jupyter Notebook, Anaconda, Docker, and Git. Design: Figma and Adobe Illustrator. Language: English (Fluent), Kiswahili (Native), and Arabic (Beginner). Work Skills: Adaptive, problem-solving, critical thinking, team player, and detail-driven.

RELEVANT PROJECT

Project Name: Facemask Detection System.   **Dar es Salaam, Tanzania**
Software Engineer   Jul 2022 - Oct 2022
- Monitored the model's performance by adjusting it to maintain accuracy in different settings.
- Gathered a diverse dataset of images containing people with and without masks that standardized the model.
- Researched and selected an appropriate deep-learning architecture by examining CNN, RCNN, and YOLO.

CERTIFICATION

DeepLearning.AI TensorFlow Developer Professional Certificate, *Coursera*   March 2023

ORGANIZATIONS

Tanzania Data Lab (dLab)   **Dar es Salaam, Tanzania**
Team Leader   July 2021- Sep 2021
- Automated data preprocessing reduced cleaning time by 50%, improving model training.
- Successfully researched and adapted ideal model configurations for system optimization.
- Evaluated CNN, RCNN, and YOLO to select an optimal deep-learning architecture.

University of Dar es Salaam Innovation Hub   **Dar es Salaam, Tanzania**
Member   July 2020- Sep 2020
- Applied responsive design, increased mobile traffic by 50%, and improved overall conversion rates by 20%.
- Innovative UI design led to 40% higher user engagement and a 25% lower bounce rate on the website
- Collaborated with cross-functional teams to conduct usability testing and gather feedback, resulting in the implementation of key improvements
